Essential Leadership Skills is specifically designed to ensure frontline leaders understand their roles and responsibilities as leaders. Additionally, attendees will learn the why, what and how of their team, how to effectively communicate with their team members, and the basics of performance management.

The better we understand ourselves and our responsibilities, the better we can fulfill our duties as leaders. To become more aware of their personal strengths and challenges as leaders, each participant will receive a personalized **DISC Behavioral Assessment**, which will detail their unique leadership style. □□□
